

FOCUS

In this show, we want artists to explore the idea of trust. This theme can be explored in many creative ways that show either the positive or negative aspects of trust/distrust. Perhaps think of a place that you associated with security and trust, or a person who embodies it, or an exploration of trust in society, culture, or faith.

This theme is open to any 2-D art form, including realism, impressionism, abstract, photography, landscapes, portraits, mixed media, etc. Get creative.
